

# WE'RE HIRING NEW TALENTS!

## **DEVOPS MANAGER / SYSADMIN (m/f) – based in Slovenia**

### **ABOUT US**

We are Sowa Labs, an international, dynamic and passionate Fintech startup with lots of love and craziness for AI, predictive data analytics and retail investors. Just recently, we teamed up with Boerse Stuttgart, Europe's leading stock exchange for securitized derivatives and retail investors. We are headquartered in Stuttgart, Germany and have our research and innovation hub close to the beautiful mountain panorama of Ljubljana, Slovenia. Our goal is to facilitate investing and trading in financial markets so that everybody out there is able to find, evaluate and trade an investment opportunity just as easy as grocery shopping. We are a great team with many different backgrounds and we are looking for talents to shape the future of trading and investing with us.

### **ABOUT YOU**

You eat complexity for breakfast, have never met a challenge you don't like and strive towards delivering out of the box solutions. Optimization is your middle name and you don't accept to be the second? If so, we are pleased to meet you!

### **JOB DESCRIPTION**

We are looking for a system administrator responsible for designing, implementing, and monitoring the infrastructure; also, to collaborate with other team members to develop automation strategies and deployment processes. You will become an integral part of the team, making every problem of the platform a problem of your own, and solving them accordingly.
