

WE'RE HIRING NEW TALENTS!

FRONT-END DEVELOPER (m/f) – based in Slovenia

ABOUT US

We are Sowa Labs, an international, dynamic and passionate Fintech startup with lots of love and craziness for AI, predictive data analytics and retail investors. Just recently, we teamed up with Boerse Stuttgart, Europe's leading stock exchange for securitized derivatives and retail investors. We are headquartered in Stuttgart, Germany and have our research and innovation hub close to the beautiful mountain panorama of Ljubljana, Slovenia. Our goal is to facilitate investing and trading in financial markets so that everybody out there is able to find, evaluate and trade an investment opportunity just as easy as grocery shopping. We are a great team with many different backgrounds and we are looking for talents to shape the future of trading and investing with us.

ABOUT YOU

You eat complexity for breakfast, have never met a challenge you don't like and strive towards delivering out of the box solutions. Optimization is your middle name and you don't accept to be the second? If so, we are pleased to meet you!

JOB DESCRIPTION

We are looking for a Front-End Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.
